

Model coverage and granularity (Klein)

- « ...This is a mismatch in the part of the domain that is covered by the ontology, or the level of detail to which that domain is modelled. »

KL
06

« example of an ontology about cars: one ontology might model cars but not trucks. Another one might represent trucks but only classify them into a few categories »

KLEIN, Michel. Combining and relating ontologies:
an analysis of problems and solutions.
