-
- The diagram illustrates the concept of 'owl:sameAs' in the context of player identification. It shows two images of a player, one with a red jersey and one with a black jersey. The images are connected by a dashed line labeled 'owl:sameAs'. The diagram also shows various properties (foaf:name, rdf:type, owl:sameAs, etc.) and their corresponding values (Lionel Andrés Messi, Player, 'LA. Messi', etc.) in a structured way.
